

MINI BALL™

Modular Launcher SA

Part Number:	SDBSA68 SDBFS68 (w/ stock)	Safety:	Lever
Colors:	Black with orange accents	Target Range:	0-60 feet 0-20 meters
Weight:	5.3 lbs. 2.4 kg	Area Saturation:	175 feet 53 meters
Length:	20.75" 52.70 cm	Muzzle Velocity:	285-330 + FPS 87-100 + MPS
Capacity:	200 Rounds	Kinetic Impact:	10 ft.·lbs. - 15 ft.·lbs. 13-21 Joules
Air Source:	3000 PSI HPA	Operating Temperature:	.37°-130°F 3°-55°C
Action:	Semi-auto		

SDI's Mini Ball™ Modular Launcher (Semi-Auto) features a patented air-driven feed system that indexes the next projectile into the firing chamber with each shot.

Easy to operate, even with gloves, this feature allows launchers to be stored degassed, but reliably deployable within seconds.

Continuous feed rates of up to 15 rounds per second reduce the risk of projectile jams or breaks due to miss feeds; and eliminate having to "shake" the launcher to maintain adequate feeding.
